Touching Music  
for dancers  
and voice

**Fet<sup>11</sup> Closing Performance - 6 May 2011**

Casa Paganini – InfoMus Research Centre  
DIST, University of Genoa

Be captivated by the ability of dance to inhabit a physical space, create social interactions, and resonate the emphatic responses from your body. Linking tango music, technology and dance, Casa Paganini – InfoMus brings together artistic expression and science.

This artistic performance presents scientific research challenges on computational models and techniques to measure non-verbal expressive, emotional, and social communication.

Details on the scientific research are available at the FET11 Poster Session 2, 17:30-19:00.

**Project:** Antonio Camurri, Corrado Canepa, Nicola Ferrari, Gualtiero Volpe (Casa Paganini – InfoMus)

**Music:** Corrado Canepa, Nicola Ferrari, Marco Canepa, Roberto Tiranti
